The World of Coal Ash 2017 Plenary Speakers, Craig Heidrich - WWCCPN and Tom Adams – ACAA, will take a look at global and domestic coal resources, CCP production and utilization, and future demand for changing and increasing coal energy. The changing paradigms of CCP’s as a globally traded commodity, and the impacts on investment will also be discussed.

Alexandra Dapoliti Dunn, the Executive Director and General Counsel of the Environmental Council of the States, will address coal ash regulation compliance, last year’s legislation shifting enforcement authority for the regulation to the states, and how a new EPA is expected to support greater state involvement in all environmental regulations.
Alexandra Dapolito Dunn is the Executive Director and General Counsel of the Environmental Council of the States. Dunn has two decades of experience in environmental law and policy, and presently works on legislation, policy, and regulatory matters affecting all media – including air, waste, water, and toxics. Dunn is a Lecturer in Law at the Catholic University of America, an Adjunct Associate Professor of Law at American University, and faculty advisor to CUA’s Environmental Law Society. She earned her J.D., magna cum laude, at the Catholic University of America, and earned her B.A., cum laude, at James Madison University.

Alexandra Dapolito Dunn
Executive Director and General Counsel of the Environmental Council of the States.

Also: (Hon. Chair) World Wide Coal Combustion Products Network, Australasian (iron & steel) Slag Association, Amorphous Silica Association of Australia, Concrete Pumping Association of Australia and Non-Executive Director of Concrete Institute of Australia Ltd and Steel Stewardship Forum

As the Managing Director of HBM Group Pty Ltd, the company became involved in industrial by-product utilisation back in 1997. The company specializes in providing professional industry association secretariat services and management support, focusing on industry advocacy, RD&D management, policy development and membership support – leading towards the effective utilisation of industry by-products and recovered resources. His research interests include not-for-profit organisations; effective utilisation of industrial by-products; sustainable buildings and greenhouse gas abatement through recovered recovered resource use.

Craig is also a Fellow of the Australian Institute of Management (FAIM), a member of the Australian Society of Association Executives (AuSAE), a member of the Australian Institute of Company Directors (AICD) a Certified Practicing Marketer (CPM) with the Australian Marketing Institute (FMAMI) professional program.

He earned a BA in Communications, MBA (International Business) from University of Wollongong.
